NEUROFEEDBACK TRAINING

INFINITE MINDS DEVELOPMENT CENTER

Train the Brain. Transform Potential.

Neurofeedback is a brain training program that uses real-time feedback to help the brain learn to self-regulate. lt improves attention, memory, emotional control and self-regulation naturally.

FUN, ENGAGING & MOTIVATING

Children train their brains through interactive games rather than boring and repetitive exercises, making learning fun and effective!

How Does It Work?

Calibration
Customise attention baseline for each child

Real-Time Neurofeedback Therapy
Child's focus level drives the avatar to either move forward or to stop.

Training Attention
Gameplay helps improve sustained attention, selective attention, and inhibition control.

Transfer Effects
Notice improvements in handling everyday tasks such as paying attention in class or answering academic questions.

PROGRAM OVERVIEW

Intake
Open throughout the year (Enroll Anytime)

Session Schedule
Monday - Friday
Flexible session times between
9:00 AM - 12:00 PM or
1:30 PM - 5:00 PM

Programme Duration
3 Months (24 sessions)
Extension available based on individual progress.

Session Frequency
2 Sessions per Week

Session Duration
30-45 minutes per Session

Consultation & Demonstration
A programme demonstration can be arranged during your consultation session.

SCIENCE-BACKED & CLINICALLY PROVEN

Brain-Computer Interface (BCI) Neurofeedback Therapy

STATISTICALLY SIGNIFICANT IMPROVEMENTS

Clinically proven to improve focus, impulse control, and emotional regulation – backed by fMRI brain scans.

SAFE & NON-INVASIVE

No medication.
No adverse side effects.
No game addiction.

PROGRAM FEES (3-MONTH PROGRAM)

Account Creation	**RM 500**
24 Neurofeedback Sessions	**RM 2,800**
TOTAL	**RM 3,400**
